

### Colona is growing!

Since the opening of Colona in El Gouna in October this year, Colona now has three Dive Centers in Egypt. This means that we offer a wide variety of possibilities for your next holiday, as you can combine your diving with visiting different places of this beautiful and fascinating country. At all our Dive Centers our professional and multi-lingual staff will do their utmost to make your stay unforgettable. All our centers are fully equipped and offer daily a wide variety of diving and snorkelling activities.

### Colona El Gouna

Colona is situated at the Three Corner Rihana Resort in El Gouna. All our courses and introduction dives are conducted according to PADI standards. Our classroom is air conditioned and fully equipped with TV, video and AV-projector. In connection with the Dive Center a shopping arcade is situated. Within the hotel you'll also find a lot of very nice restaurants. The diving in the El Gouna area offers everything from beautiful coral reefs to exciting wrecks. Abu Nuhas with its four wrecks as well as the Rosalie Möller or SS Thistlegorm can be done in day trips.

El Gouna as a resort is brand new. Situated only 35 kilometres north from Hurghada, it has developed during the past ten years and offers a wide variety of activities. You'll find long sandy beaches, restaurants representing the whole world's cuisine as well as night clubs and bars. Surrounded by beautiful channels which makes the water taxi a nice option for transportation. If you would like a day off from

the beach you can always play golf or go horse back riding. Or why not try the go-cart?

### Colona Hurghada

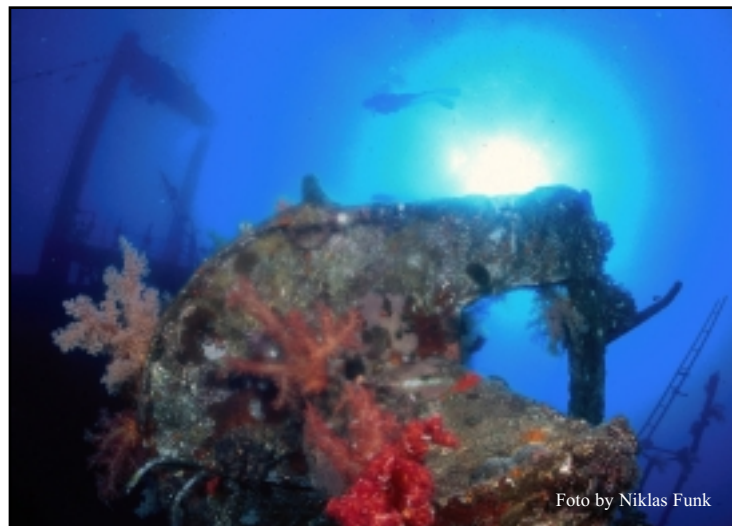

The Dive Center is situated directly on the beach inside the area of Hotel Magawish. Going on a safari or a day trip, all boats leave from our own jetty. With Colona V you can go on wreck safari visiting all interesting wrecks in the area. In one safari we'll take you to the SS Thistlegorm, Chrisoula K, Carnatic, and also Rosalie Möller for the experienced divers.

Until the end of February we have a special offer on our Specialty Courses in both Nitrox and Photography. One of the advantages diving with Nitrox is that it offers you the possibility of longer bottom times.
